

BRIEF INFORMATION

Cleantech 3.0 Flat Blade

→ Stylish design with aerodynamic spoiler
→ Grade A+ rubber ensures optimized visibility and longer lifetime*
→ Nano-Graphite Teflon (PTFE) coating to provide minimum friction resistance
→ All weather performance for safe driving even in sleet or snow

PRODUCT FEATURES

The Cleantech 3.0. wiper blades from HELLA combine design, performance and safety. They are available for almost every vehicle model. No matter whether you only drive occasionally or are constantly on the road: it is vital to see the road clearly. High-quality wiper blades are therefore essential. The high-quality A+ rubber guarantees first-class wiping performance, improves visibility in all weather conditions and impresses with a service life that is up to longer lifetime*. Thanks to the innovative Nano-Graphite Teflon (PTFE) coating, the wiper blades glide almost frictionlessly across the windscreen and reduce annoying noises to a minimum.

* Longer lifetime: Compared to Cleantech 2.0
