

BRIEF INFORMATION

Smarttech 2.0 Wiper

→ Hook, Pin arm, Bayonet 3 in 1 adapter
→ Classic U hook design easy to assemble
→ LHD and RHD compatible

PRODUCT FEATURES

The wiper blades are made of high-quality natural rubber, which offers excellent elasticity, durability and resistance – for clear and efficient wiping performance. Thanks to an exclusive extrusion manufacturing process with 360° surface treatment, consistently clear wiping performance is guaranteed.

A special Graphite coating reduces the resistance between the wiper blade and windscreen, resulting in a smoother and quieter wipe. In addition, exceptional water repellency ensures that water droplets do not stick to the blade, ensuring streak-free vision even in heavy rain. Teflon coating guarantees as well protection versus UV rays.

The robust stainless steel frame is dimensionally stable and enables a long-lasting cleaning performance of over one million wiping cycles.
